

Robot Pro-Wrestling Times

My own robots dreams -everything robots-

Children Wildly Excited at Our First Performances in China!

Robot pro-wrestling event 'Dekinnoka!' was held at event called 'Market Faire Chengdu' in *Sichuan* province and 'Maker Faire Xi'an' in *Shaanxi* province. We had eight people including robot artists and staffs came from Japan to participate in *Chengdu* event and nine for the *Xi'an* event. Both events had three shows including popular matches among fans in Japan such as *Ryuketsu-Kamen vs King Kaiser* or *Tokotoko-Maru vs Afro*.

We were concerned about attracting customers for these events as we had heard previously that the normal 'pro-wrestling' games were even not as popular in China compare to that in Japan. However, contrary to our concern the events were great success and had around 200 children at each event, which we

actually had to have an additional performance as well at the end.

Children at China events were all very enthusiastic to get to know about Robots and we had tons of questions after our performances. We hope their experiences at our events led them to have more interest towards robots overall as it's the main reason for us to operate these events.

Robot pro-wrestling 'Dekinnoka!' will continuously be held in Japan as well as in all over the sea from now on and we hope to keep broaden children's interests and knowledge on robots how they are fun and amazingly well-made.

Ryuketsu-Kamen appeared in both main events, gracing the very first performance in China.

The last show in Xi'an was held at a main stage of the event and about 500 to 600 people came to watch the show.

ROBOT ENTERTAINMENT SHOW ROBOT PRO-WRESTLING DEKINNOKA!

What is Robot Pro-Wrestling ‘Dekinnoka!’ ?

Robot pro-wrestling ‘Dekinnoka!’ is a robot entertaining show with humanoid robots. We have established this group in November 3rd, 2008, hoping to make an opportunity for children to become more interested in ‘Handmade’ through these exciting and cool handmade robot pro-wrestling show.

We have earned good reputations from children starting from local festivals or handmade craft events in Japan. Currently we had held this show for 32 times in total within different countries including in Japan, United States, and China.

Robot pro-wrestling’s main purpose is not just about a tournament game which intended to decide the winner. It is the ENTERTAINMENT show.

Our shows are held in countries including Japan, U.S., and China!

We have focused and spending times more on its performance (design) how we could maximize the surprises and enjoyments for our audience through the show. We believe that will lead children to lower the threshold and to make them wonder or become interested in these robot technologies.

Please go ahead and take a look at our Robot Entertainment Show! This Robot Pro-Wrestling is *THE ONLY* Robot Entertainment show in a world where you can experience the lots of fun and surprises of robot technologies!

Robot Pro-Wrestling ‘Dekinnoka’ Show will be held at Maker Faire Tokyo 2017!

You can see our show at Maker Faire Tokyo 2017!! Don’t miss this exciting show!!
